

### **SB 2812 Odor Destroyer**

SB 2812 Odor Destroyer is a fast acting, scientifically formulated, non-masking system that eliminates odors caused by organic decay, smoke, fires, sewage, chemicals, mold, mildew and animals. Unlike other products that simply "complex" odor molecules, SB 2812 chemically destroys the offensive odors like ammonia and mold to eliminate them completely. SB 2812 Odor Destroyer is also a very effective spray and wipe hard surface cleaner.

#### **Preparation**

In most instances the product is used without dilution and is applied by pump up or trigger spray. Do not add vinegar or any other cleaners to this product. In situations where most of the cleaning is being done with other chemicals, such as carpet cleaning and floor scrubbing, Odor Destroyer can be added to the fresh rinse water at the rate of a few ounces per gallon to eliminate residual odors.

#### **Dilution and Coverage**

Dilution: Used undiluted in most applications  
Coverage: Dependent upon substrate and other conditions

#### **Application**

SB 2812 can be applied to almost any surface that is not damaged by water. SB 2812 has been shown to not affect the appearance of most substrates, but delicate substrates like dyed natural fiber fabrics should be tested for color fastness in an inconspicuous place. For deodorizing hard surfaces like porcelain, ceramic, plastic, metal, painted wood and stone, the product can simply be applied and left to dry. When used as a cleaner on these surfaces the product can be used as a spray and wipe product. Unless needed to remove remaining dirt, it is not necessary to rinse.

On porous substrates such as carpeting, drapery and upholstery or moderately permeable surfaces like drywall, unfinished wood or concrete, the product does not need to be rinsed. It is effective for use in garages, garbage cans/areas, pet beds and pet areas, bathrooms, kitchens, apartments, housing facilities, automobiles [great for eliminating cigarette/cigar odors], recreation and fitness clubs, etc.

#### **Technical Data**

Appearance: Clear Liquid	pH: 8.5
Biodegradable: Yes	Rinsing: Complete
Flash Point: None	Solubility: 100%
Foaming: Medium	Stability: Good
Odor: None	Wetting Ability: Excellent

#### **Safety**

There are no GHS ratings that apply to this product at this time

Refer to product SDS or product label for hazard statements, precautionary statements and safety information

#### **Warranty**

Shore Corporation warrants that this product conforms to the chemical composition described in the Product Label. SHORE CORPORATION EXPRESSLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Shore Corporation shall not be responsible for any direct or consequential damages sustained as a result of the use of this product. Further, Shore Corporation shall not be liable for personal injuries, property damage or any other damages as a result of the use of this product, the sole responsibility of Shore Corporation under the within WARRANTY being the replacement of any nonconforming product. Acceptance and use of this product absolves Shore Corporation from any other such liability whatsoever and from whatever source. The within WARRANTY may not be modified or extended by Shore Corporation representatives or distributors, neither of which are empowered to make any product representation inconsistent with the terms hereof.
